

# THE DIAGONAL MEASUREMENT OF THE SCORELINE "BOXING THE EYES"

	Distance between 1 <sup>st</sup> – 2 <sup>nd</sup> barrels						
	60ft	65ft	70ft	75ft	80ft	85ft	90ft
<b>Scoreline</b>							
30ft	67.1	71.6	76.2	80.8	85.4	90.1	94.9
35ft	69.5	73.8	78.3	82.8	87.3	91.9	96.6
40ft	72.1	76.3	80.6	85.0	89.4	93.9	98.5
45ft	75.0	79.1	83.2	87.5	91.8	96.2	100.6
50ft	78.1	82.0	86.0	90.1	94.3	98.6	103.0
60ft	84.9	88.5	92.2	96.0	100.0	104.0	108.2

Although some distances between 1<sup>st</sup> & 2<sup>nd</sup> may not be exact figures, this will help as a guideline.

**Example:**

35ft stopping closed gate  
30ft stopping open gate

98.5ft is where the measuring tapes should cross when "boxing" the eyes

$$\begin{array}{r} 98.5ft \\ + 40.0ft \\ \hline 138.5ft \end{array}$$
 138.5ft is the distance it should be when measuring from 1<sup>st</sup> barrel to the timer to 2<sup>nd</sup> barrel
